

A photograph of two men in a control room. One man, wearing glasses and a light-colored shirt, is pointing at a large screen displaying a green and white interface. The other man, wearing a blue shirt, is sitting at a desk with a laptop, looking at the screen. The room has a blue tint and industrial-looking ceiling lights. A large white arrow graphic points from the left towards the center of the image.

Net sales and profitability development, annual

Net sales and Comparable EBITA (EUR million)¹

New EBITA target
8–10% from 2017
onwards

- Timing of large projects has had an impact on the level of net sales
- Good stimulus-driven demand in China 2009–2010 supported orders
- The paper machine market has shifted to smaller and lower-cost machines
- In 2013, the power generation market was affected by low-cost shale gas and political and economical uncertainty in Europe
- From 2014 onwards profitability has improved as a result of cost savings, implementation of Must-Wins and the acquisition of Automation

¹⁾ Actual figures for 2014. Carve-out figures for 2010-2013; as reported for Metso's Pulp, Paper and Power segment for 2006-2009. Automation has been consolidated into Valmet's financials since April 1, 2015, when the acquisition of Automation was completed.

Focus areas and actions

Summary of key actions by business

Stable business

- **Financial target:**
Net sales for stable business to grow over two times the market growth

Key actions in stable business

- Systematic promotion of whole offering – Valmet way to serve
- Localize the engineering resources in growing service areas
- New service center in Indonesia in 2017, strengthened presence in Mexico
- Increase market share in Services in Central and Eastern Europe
- Continue to win market share in pulp and paper via automation competitor replacements
- Grow DCS market share in Automation

Capital business

- **Financial target:**
Net sales for capital business to exceed market growth

Key actions in capital business

- Improve market share and solution competitiveness in pulp mills and rebuilds
- Expand global market presence in heat and power generation
- Maintain #1 position in the paper market, especially in North America and EMEA
- Increase market share in Paper in South America, grow in Tissue in China and Asia-Pacific

Summary of key actions by area

North America

- Strengthened service presence in Mexico
- Grow automation market share via competitor replacements
- Strengthen the role in pulp rebuilds
- Focus on maintaining #1 position in Paper

EMEA

- Increase services market share in Central and Eastern Europe
- Grow automation market share via competitor replacements
- Capitalize rebuild potential in Pulp, strengthen position in Energy
- Focus on maintaining #1 position in Paper

China

- Strengthen key account management to continue service growth
- New capacity projects in Automation
- Gain leading market share in pulp and develop position in energy
- Reduce capacity cost in production in Paper and grow tissue

South America

- Drive growth through long-term service agreements in pulping
- New capacity projects in Automation
- Capitalize opportunities in pulp mills
- Increase market share in Paper

Asia-Pacific

- New service center in Indonesia in 2017
- New capacity projects in Automation
- Capitalize rebuilds in pulp, grow in energy
- Grow in tissue and develop supplier network in India in Paper

Actions to reach EBITA target

Comparable EBITA margin in 2015	6.2%

Net sales (EUR million) and Comparable EBITA margin (%)

2013 figures on carve-out basis

Procurement and quality cost development

Implemented procurement savings of annual direct spend

Original three-year target to reduce procurement costs by 10% by the end of 2016

Reaching and exceeding our original three-year 10% savings target

- Continuing to target >3% annual savings with new actions
 - Increasing design-to-cost (DTC) to create new sources for savings
 - More supplier involvement through supplier relationship management
- Continuing sustainable supply chain implementation

Quality costs (EUR million and % of net sales)

Original three-year target to reduce quality costs by 50% by the end of 2016

Progressing in cutting the quality costs by 50%

- Adding focus in root cause analysis of the quality deviations
- Extensive Lean implementation and training
 - Over 4,000 Valmet employees completed Lean e-learning
 - Lean being deployed in all major locations and businesses

Currency exposure and foreign exchange risk management

Currency exposure

- All operating units are required to hedge in full their foreign currency exposures
- Hedging takes place when firm commitment arises or at the latest immediately after operating units have reported their monthly currency exposure
- Valmet is not hedging any translation risk arising from subsidiaries' equity
- Intra corporate dividends, loans and deposits shall be hedged when internal decisions have been made
- Treasury acts as an internal bank for subsidiaries and manages corporate wide foreign currency exposure by hedging Corporate level net exposure towards banks

Foreign exchange risk management

- The exposure is a net of all assets and liabilities denominated in foreign currencies derived from sales and purchase contracts, projected cash flows and firm commitments
- A 10 percent appreciation or depreciation of EUR against all other currencies would have an effect of, net of taxes, -/+ EUR 1.5 million on EBITA

Offering

Comprehensive life-cycle services offering and large customer base with significant potential

Comprehensive life-cycle services offering

Over 2,000 customer mills and plants served globally

Spare and wear parts

- All OEM spare parts and standard parts in Valmet deliveries
- Inventory management services and process parts, such as consumables and auxiliary products

Fabrics

- Paper machinery clothing
- Filter fabrics used in the pulp and paper, mining and chemical industries and power plants for various filtration purposes as well as in commercial laundries

Mill and plant improvements

- Plant upgrades
- Modifications and environmental improvements
- Troubleshooting
- Shutdown maintenance
- Maintenance outsourcing for the entire customer plant

Roll and workshop services

- Maintenance services on rotating equipment: roll covers, spare rolls and roll upgrades
- Rebuilds for all manufacturers' board, tissue, pulp and paper machines
- Workshop services: pressure part manufacturing, boiler component services, parts to protect and enhance boiler performance and fiber equipment refurbishing

Energy and environmental

- Services for evaporation plants, power and recovery boilers, and environmental equipment

Our automation offering

Advanced automation and process monitoring solutions and services:

- Distributed Control System (DCS) – Valmet DNA
- Performance solutions
- Quality Control System (QCS)
- Profilers
- Analyzers and measurements
- Industrial internet solutions
- Automation services
- Process simulators
- Safety systems and solutions

Our pulp and energy technology offering

- Wood handling systems
- Cooking systems
- Complete fiber lines
- Pulp drying systems

- Evaporation systems
- Recovery islands

- Circulating fluidized bed boilers (CYMIC)
- Bubbling fluidized bed boilers (HYBEX)
- Biomass and waste gasification
- Oil and gas boilers
- Waste heat recovery
- Air pollution control systems

- Pyrolysis solutions for bio-oil production
- LignoBoost for lignin extraction
- Steam treated pellets production lines
- Biomass prehydrolysis for further refining to fuels or chemicals

300 complete fiber lines and 350 recovery islands delivered

400 boilers and environmental protection systems delivered

Our paper technology offering

Board and paper

- Board and paper production lines
 - Recycled fiber lines
 - Tailor made OptiConcept machines
 - OptiConcept M modularized machines
- Rebuilds
 - Modernizations and grade conversions
- Stand-alone products
 - From stock preparation to roll handling

Over 1,600 board and paper machines delivered

Tissue

- Tissue production lines
 - Advantage DCT
 - Advantage NTT
 - Advantage Thru Air (TAD)
- Rebuilds
- Stand-alone products
 - e.g. Yankee cylinders

Over 200 tissue lines delivered

Continuous investment in research and development to improve customers' processes

Customers' needs

- Increase production efficiency
- Improve competitiveness
- Maximize value of raw materials
- Widen raw material base
- Provide high-value end products
- Develop new innovations and technologies

Valmet's R&D focus

- Modularized and standardized products
- Energy, water and raw material efficiency
- Automation technology
- Biomass conversion technologies

Valmet's R&D resources

- Own R&D centers and pilot facilities
- Annual R&D spend about EUR 60 million
- Around 1,800 protected innovations
- Cooperation with universities and research institutions

Example of our R&D work - OptiConcept M board and paper machine

- Cost-efficient, high-quality, safe and flexible board making concept
- Significant savings in energy, water and raw material use
 - Energy efficiency improvement up to 30%
- Modular and compact size
 - Short delivery times, quick start-ups, and less production space
- Functional design brings increased safety and accessibility
 - Design acknowledged in Finnish design competition in 2014
