

# Neles™ angle pattern globe valves

## Series AU, AB, AM

Neles A series angle pattern globe valves are economical high-performance control valves designed to provide the best possible control accuracy and wide rangeability with the all inherent benefits of linear control valves. The A series valves are designed for use in modulating control, available with Unbalanced trim, Balanced cage trim and Omega™ multistage trim. They provide reliable operation and are well suited for many different kind of applications.

The angle pattern valves are especially suitable for severe applications where high pressure drop and erosive fluid exist. The flow in an angle valve does not impact directly into the body as it exits the trim, instead, it passes straight down into the downstream piping, which is an advantage if the fluid is erosive and moving at high velocity. Standard valves are equipped with spring diaphragm actuators and Neles intelligent valve controllers for precise flow control, extended operational life and performance monitoring on-line.

### Construction

- Various construction design available with a range of different end styles and connections
- The Omega standard balanced trim design is based on 2 or 3 dimensional multistage cage and balanced plug.
- The multistage trim shape defines the flow path through the valve and flow characteristics of the valve (linear, equal percentage or others), standard trim characteristic is linear.
- The balancing holes are located in the top of the plug. This trim is specially suited to high pressure drop application and is used in the majority of control applications.
- Wide variety of trims with different Cv and characteristics
- Both metal and soft seats are available depending the application
- Optional bellows seal for toxic or other applications where no stem seal leakage is allowed
- Wide material selection for different applications
- Many end connection styles available for different applications
- Extension bonnet design for wide temperature range

### Wide range of applications

- Suitable for gas, liquid and steam
- Wide temperature ranges from -196... +593 °C (-320...+1099 °F) with different bonnet constructions. Temperature limits -29 ... +425 °C / (-20 ... +797 °F) with standard bonnet construction, over +425 °C (+797 °F) and under -29 °C / (-20 °F) with extended bonnets
- Large variation of trim designs for multi-turns and passages for low-noise, and anti-cavitation applications
- Wide range of applicable noise control components, silencers, attenuate plates
- Inherently characterized trim offered in linear, and optionally
- Equal percentage.
- Large range of trims per size allowing for wide rangeability in process conditions

- Clamped cage for heavy duty guiding on severe service applications
- High integrity cage guiding system
- Double packing available

### Accurate control

- ND9000 digital valve controller for auto-calibration and accurate control
- Accurate and sensitive diaphragm and cylinder actuators
- Stable flow control with high rangeability
- Low-noise, anti-cavitation control and erosion resistant trims
- Streamline flow passage to secure capacity

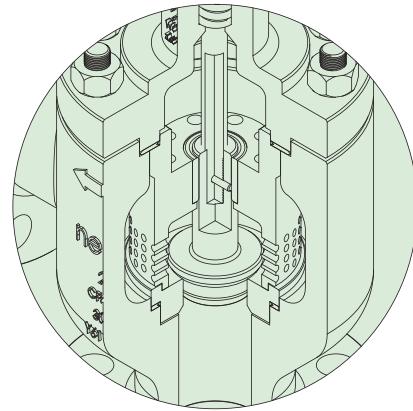

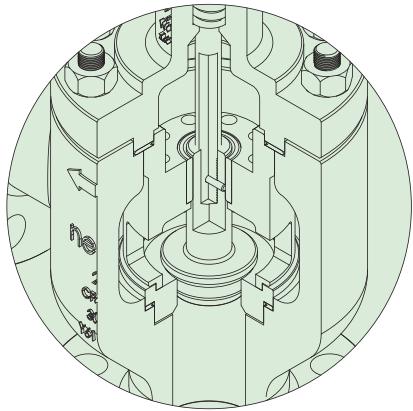

### Safety and quality

- Rugged one piece body structure to minimizes the leak paths and makes the valve insensitive to pipe stress
- Strictly tested to ensure specified performance with quality assurance systems in according to ISO 9001
- Certified ISO 15848 fugitive emissions
- Certified CE/PED & ATEX, TSG & EAC (GOST-R)
- Certified SIL(Safety Integrity Level) in accordance to IEC61508

### Easy maintenance

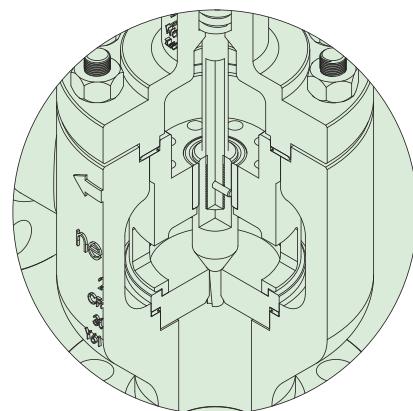

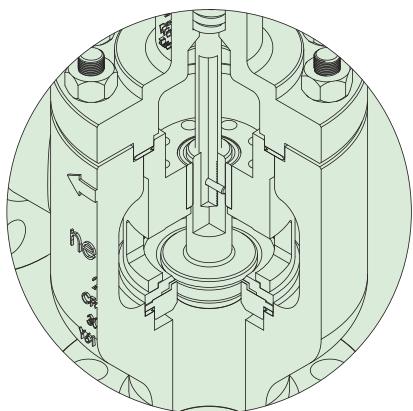

- Quick change trim and top entry construction for easy in-line maintenance
- Valve assembly is easy and self guiding
- Flow characteristics can be easily changed with interchangeable trim parts
- Neles digital valve controller with online diagnostics enables performance follow up and predictive maintenance
- Efficient asset management with any FDT frame application and excellent networking capabilities

## AU, Different trim designs

### AU, Standard contoured trim

AU, Quick change standard contoured plug offers a smooth flow profile.  
The trim is most suited to low pressure drop application and is used in the majority of control applications.

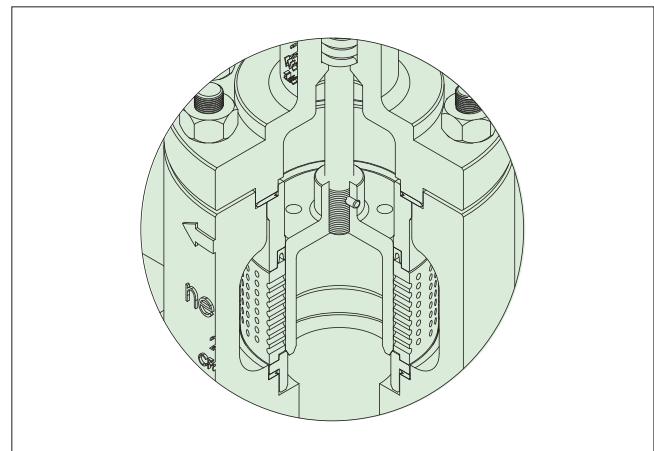

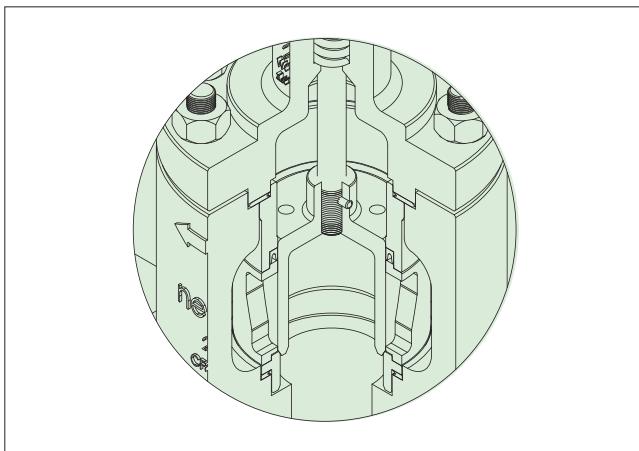

### AU, Soft seat trim

AU, Soft seat option is used on applications where bubble tight shut off, seat leakage class VI is required.

### AU, Micro trim

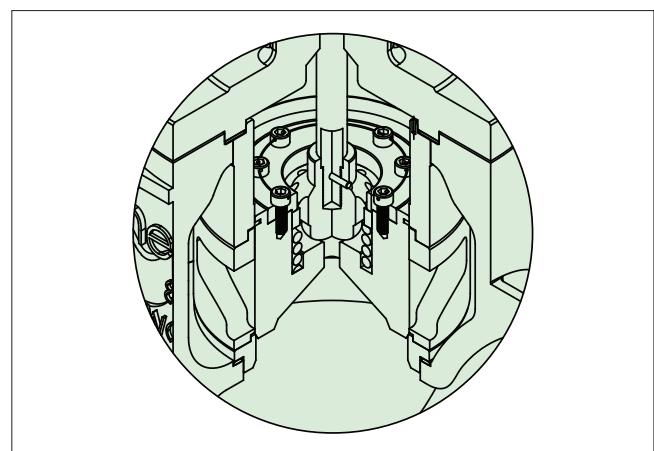

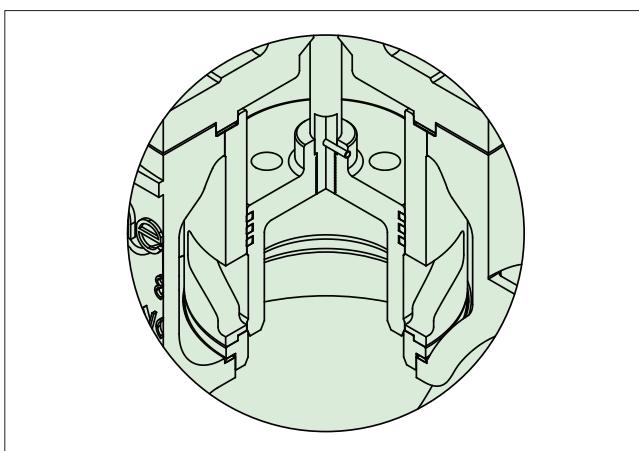

AU, Micro trim design is an ideal selection for the very low flow rates which is from rated Cv 0.003 to 0.1.

## AB, Different trim designs

### AB, Quick change, standard cage trim

The standard cage trim is designed with a specially represented window shape cage and balanced plug. The window shape defines the flow path and the flow characteristic of the valve (linear, equal percentage, others). The balancing holes are located in the top of the plug. This trim is suited for both high and low pressure drop application and is used in the majority of control applications.

### AB, Multiple graphite seal rings, one piece cage trim

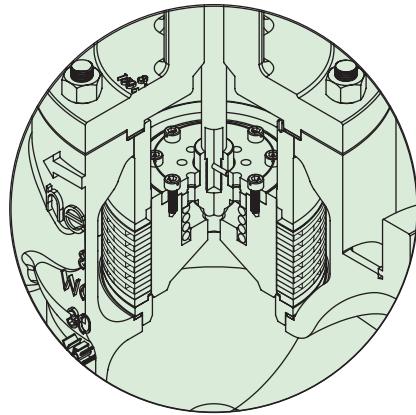

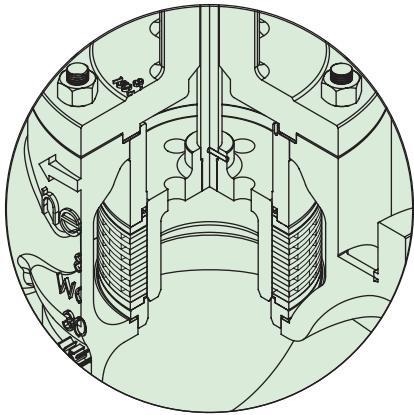

This design is suitable for various high temperature applications including high pressure applications ultimately. The 3-layer graphite seal rings are inserted on the plug groove surface.

One piece cage leads the stable plug motion to achieve the seat tightness class IV. The trim is suitable with both standard cage and Tendril trims.

### Pilot balanced trim

Pilot balanced trim construction is designed to be used in high temperature applications as the design is fully made of metal and it has only metal-to-metal sealing surfaces. The trim is suitable with both standard cage and Tendril trim. This design has excellent seat tightness up to FCI 70-2 Class V.

## Different trim designs

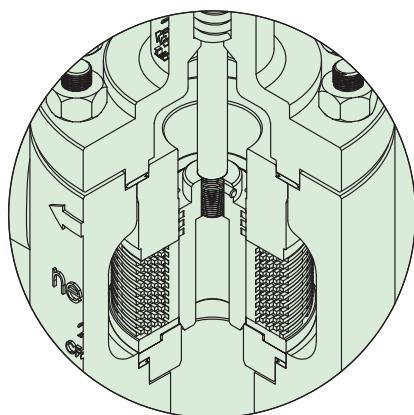

### AM, Omega quick change, Standard balanced trim

The Omega standard balanced trim design is based on 2 or 3 dimensional labyrinth disk stack cage and balanced plug. The opened disk stack shape defines the flow path through the valve and flow characteristics of the valve (linear, equal percentage, others), standard trim characteristic is linear. The balancing holes are located in the top of the plug. This trim is specially suited to high pressure drop application and is used in the majority of control applications.

### AM, Omega quick change, Pilot balanced trim

Pilot balanced trim construction is designed with a special pilot plug & seat built-in the main plug. The design gives excellent seat tightness on high pressure drop and high temperature applications. The design applicable TSO (Tight Shut Off, seat leakage class V) requirement in high temperature services.

### AM, Multiple graphite seal rings, Omega trim

This design is suitable for various high temperature applications including high pressure applications ultimately. The 3-layer graphite seal rings are inserted on the plug groove surface. Wide guiding area of Omega leads the stable plug motion to achieve the seat tightness class IV.

## Application guide

### AU, Temperature range & seat leakage class with different bonnet & seat applications

| Valve size<br>Inch | ASME<br>rating | Seat<br>type | Temperature range (°C) |                     | Seat leakage class<br>(ANSI B 16,104) |          |
|--------------------|----------------|--------------|------------------------|---------------------|---------------------------------------|----------|
|                    |                |              | Standard<br>bonnet     | Extension<br>bonnet | Standard                              | Optional |
| Up to 6            | 150 - 1500     | Metal        | -29...425              | -196...+593         | IV                                    | V        |
|                    | 150 - 600      | Soft         | -29...+232             | -196...+232         | VI                                    |          |

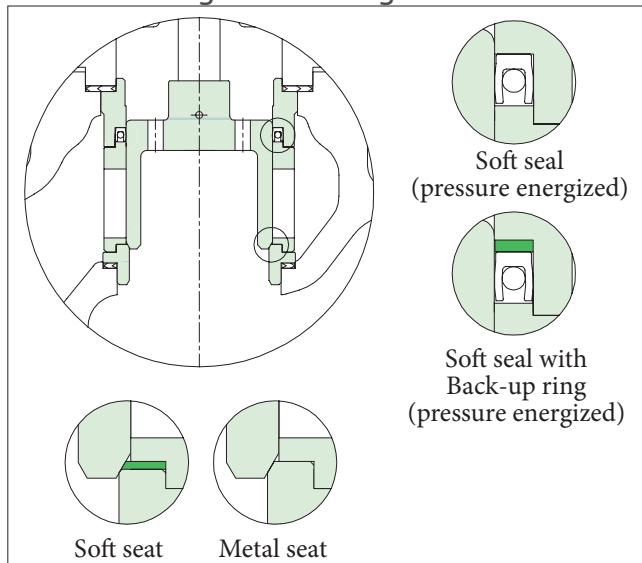

### AB/AM, Temperature range

|   |                |
|---|----------------|
| PTFE + Graphite pressure energized seal with metal seat:          | -56...+260 °C  |
| PTFE + Graphite + Carbon pressure energized seal with metal seat: | -56...+320 °C  |
| PTFE pressure energized seal with metal seat:                     | -196...+232 °C |
| Multiple graphite seals with metal seat:                          | -56...+540 °C  |
| Pilot balanced trim with metal seat:                              | -56...+593 °C  |

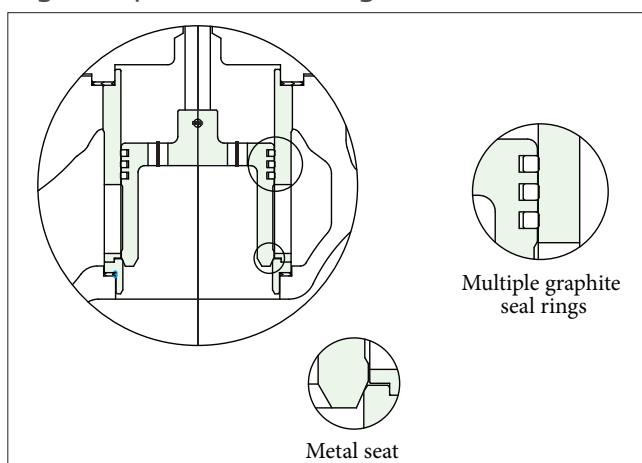

### Shut-off classification

ANSI FCI 70-2 Class IV and V available with metal and soft seat.

### Pressure energized seal ring construction

### High temperature seal ring construction

### Temperature range with different body and stud/nut materials

| Body, bonnet material                        | Stud, nut material                     | Temp. range (°C) | Sign |

## Note.

1. Plug/Seat hard facing (Cobalt based alloy) & Soft seat are available
2. Materials description
  - 316 SS : ASTM A276 TP316 or JIS 316 St. Steel
  - 410 SS : ASTM A276 TP410 or JIS 410 St. Steel
  - 440C SS : ASTM A276 TP440C or JIS 440C St. Steel
  - 17-4PH : ASTM A564 630 (H1100) or JIS 630 (H1100) St. Steel
3. Above standard materials to be applicable depending on specific service conditions, other optional materials to consult Valmet
4. Optional materials to meet to requirements of NACE MR 01-75 are available
5. The materials are subject to change as equivalent depending on detail design
6. The part no. 3\*, 5\*, 6\* are delivered as a set with no. 2

## Note.

1. Plug/Seat hard facing (Cobalt based alloy) & Soft seat are available
2. Materials description
  - 316 SS : ASTM A276 TP316 or JIS 316 St. Steel
3. Above standard materials to be applicable depending on specific service conditions, other optional materials to consult Valmet
4. Cryogenic application : ASTM A320 B8M & 8M for studs (13) and nuts (17)
5. Optional materials to meet to requirements of NACE MR 01-75 are available
6. The materials are subject to change as equivalent depending on detail design
7. The part no. 3\*, 5\*, 6\* are delivered as a set with no. 2

- Rated Cv is different depending on trim type and characteristic.

- Str : valve stroke length (mm). It should be matched with actuator stroke length.

## Rated Cv and trim table (Cage-guided angle valve, series AB)

| Y  | Special      |    |               |

### Trim constructions

| 8. | Plug material |                                   |
|----|---------------|-----------------------------------|
|    | Material      | Description                       |
| P1 | 410 SS        | General for carbon steel valve    |
| T6 | 316 SS        | General for stainless steel valve |
| VM | Alloy 6       | Use for small Cv and micro trim   |
| P2 | 420J2         | General for Cr-Mo valve           |
| S1 | 316L SS       |                                   |
| YY | Special       | Special materials                 |

| 9. | Plug application   |  |
|----|--------------------|--|
| X  | Not applicable     |  |
| A  | Cobalt based alloy |  |
| Y  | Special            |  |

| 10. | Stem material |                                   |
|-----|---------------|-----------------------------------|
|     | Material      | Description                       |
| BC  | 630 SS + HCr  | General for carbon steel valve    |
| TC  | 316 SS + HCr  | General for stainless steel valve |
| VX  | XM-19         | General for Cr-Mo valve           |
| FC  | 316L SS + HCr |                                   |

| 11. | Seat type         |  |
|-----|-------------------|--|
| S1  | Single metal seat |  |
| T1  | Single soft seat  |  |
| YY  | Special           |  |

| 12. | Seat / retainer material |                  |                    |
|-----|--------------------------|------------------|--------------------|
|     | Seat                     | Retainer         | Guide bushing      |
| R1  | 410 SS                   | CB7Cu-1 / 630 SS | AISI 440C          |
| T6  | 316 SS                   | CF8M / 316 SS    | AISI 316 + Alloy 6 |
| V6  | Alloy 6                  | CF8M / 316 SS    | AISI 316 + Alloy 6 |
| P2  | 420J2                    | CA40/420J2       | AISI 440C          |
| R2  | 420J2 SS                 | CB7Cu-1 / 630 SS | AISI 440C          |
| R3  | 316L SS                  | 316L SS          | AISI 316 + Alloy 6 |
| YY  | Special                  | Special          | Special            |

- AISI 410 is general for carbon steel valve.

- AISI 316 is general for carbon steel valve.

| 13. | Seat application                 |  |  |
|-----|----------------------------------|--|--|
| X   | Not applicable                   |  |  |
| A   | Cobalt based alloy               |  |  |
| P   | Insert PTFE                      |  |  |
| Q   | Insert PTFE + Cobalt based alloy |  |  |
| Y   | Special                          |  |  |

- Bonnet material is equivalent to body material.

- Rated Cv is different depending on trim type and characteristic.

- Str. : valve stroke length (mm). It should be matched with actuator stroke length.

## How to order

### Angle balanced, cage guided type, series AB

| 1. | 2. | 3. | 4. | 5. | 6. | 7. | 8. | 9. | 10. | 11. | 12. | 13. | 14. | 15. | 16. | 17. | 18. | 19. | 20. | 21. | 22. |
|----|----|----|----|----|----|----|----|----|-----|-----|-----|-----|-----|-----|-----|-----|-----|-----|-----|-----|-----|
| AB | 03 | C  | W  | A  | J2 | B  | P1 | X  | BC  | S1  | R1  | X   | S   | F   | G   | S   | G   | X   | A   | E   | FC  |

### Valve constructions

| 1. | Valve series                     |  |  |
|----|----------------------------------|--|--|
| AB | Angle balanced, cage guided type |  |  |

| 6. | BODY MATERIAL |  |
|----|---------------|--|
| J2 | A216 gr. WCB  |  |
| S6 | A351 gr. CF8M |  |
| J4 | A217 gr. WC6  |  |
| CG | A217 gr. WC9  |  |
| S1 | A351 gr. CF3M |  |
| YY | Special       |  |

- Bonnet material is equivalent to body material.

| 7. | Model code |  |
|----|------------|--|
| B  | Model B    |  |

### Trim constructions

| 8. | Plug material |                                    |
|----|---------------|------------------------------------|
|    | Material      | Description                        |
| P1 | CA15          | General for carbon steel valve     |
| T6 | CF8M          | General for stainless steel valve  |
| P2 | CA40          | General for high temp. Cr-Mo Valve |
| S1 | CF3M          |                                    |
| YY | Special       | Special materials                  |

| 9. | Plug application   |  |
|----|--------------------|--|
| X  | Not applicable     |  |
| A  | Cobalt based alloy |  |
| Y  | Special            |  |

| 10. | Stem material |                                   |
|-----|---------------|-----------------------------------|
|     | Material      | Description                       |
| BC  | 630 SS + HCr  | General for carbon steel valve    |
| TC  | 316 SS + HCr  | General for stainless steel valve |
| FC  | 316L SS + HCr |                                   |
| VX  | XM-19         |                                   |

| 11. | Seat type         |  |
|-----|-------------------|--|
| S1  | Single metal seat |  |
| T1  | Single soft seat  |  |
| YY  | Special           |  |

| 12. | Seat / cage material |               |               |
|-----|----------------------|---------------|---------------|
|     | Seat                 | Cage          | Cage guide    |
| R1  | CA15                 | CB7Cu-1 + HCr | CB7Cu-1 + HCr |
| T6  | CF8M                 | CF8M + HCr    | CF8M + HCr    |
| P2  | CA40                 | CA40          | CA40          |
| R3  | CF3M                 | CF3M + HCr    | CF3M + HCr    |
| YY  | Special              | Special       | Special       |

- CA15 / AISI 410 is general for carbon steel valve.

- CF8M / AISI 316 is general for stainless steel valve.

| 13. | Seat application                 |  |  |
|-----|----------------------------------|--|--|
| X   | Not applicable                   |  |  |
| A   | Cobalt based alloy               |  |  |
| P   | Insert PTFE                      |  |  |
| Q   | Insert PTFE + Cobalt based alloy |  |  |
| Y   | Special                          |  |  |

## Others

| 14. | Packing / bellows type         | 17. | Gasket material                        |
|-----|--------------------------------|-----|--|
| S   | General packing                | S   | S/W gasket type, 316L SS + Graphite    |
| E   | Low emission, live loaded      | L   | S/W gasket type, 316L SS + PTFE        |
| C   | Bellows Seal (316L SS, Formed) | H   | S/W gasket type, 316L SS + Hi-Graphite |
| Y   | Special                        | Y   | Special                                |
| 15. | Packing material               | 18. | Stud / nut material                    |
| G   | PTFE + Carbon fiber            | G   | A193 gr. B7M / A194 gr. 2HM            |
| F   | Graphite                       | D   | A193 gr. B8M / A194 gr. 8M             |
| T   | PTFE V-Ring                    | K   | A320 gr. B8M cl. 2 / A194 gr. 8M       |
| C   | PTFE + Carbon fiber (ATEX)     | H   | A193 gr. B16 / A194 gr. 7              |
| H   | Hi-Graphite                    | E   | A453 gr. 660 / A453 gr. 660            |
| Y   | Special                        | Y   | Special                                |
| 16. | Seal ring material             | 19. | Options                                |
| G   | PTFE + Graphite                | X   | Not applicable                         |
| H   | PTFE + Graphite + Carbon       | E   | Anti-erosion                           |
| M   | Graphite                       | L   | Lub. & Isol. valve                     |
| Y   | Special                        | W   | Water seal                             |
|     |                                | Y   | Special                                |

\* Face to face length according to ISA 75.08

\* The body, bonnet, trim materials are subject to change as equivalent depending on detail design.

\* See 'Neles Globe Type code Instruction' for further options and explanations.

\* Round bar material such as AISI 410SS (for A743 gr. CA 15), AISI 316SS (for A351 gr. CF8M), SUS420J2 (for A743 gr. CA40) and AISI 630SS (for A747 gr. CB7Cu-1) can be used depending on manufacturing process.

## Trim type & rated Cv

| 20. | Trim type                | 21. Sign | Trim characteristic | 22. Sign | Description                  | Rated Cv                      |          |          |          |          |           |            |            |            |      |     |      |     |      |     |      |     |      |

- Rated Cv is different depending on trim characteristic.

- Str. : valve stroke length (mm). It should be matched with actuator stroke length.

## How to order

### Angle Omega trim, multi-stage type, series AM

| 1. | 2. | 3. | 4. | 5. | 6. | 7. | 8. | 9. | 10. | 11. | 12. | 13. | 14. | 15. | 16. | 17. | 18. | 19. | 20. | 21. | 22. |
|----|----|----|----|----|----|----|----|----|-----|-----|-----|-----|-----|-----|-----|-----|-----|-----|-----|-----|-----|
| AM | 02 | C  | W  | A  | J2 | B  | P2 | X  | BC  | S1  | P2  | X   | S   | G   | G   | S   | G   | X   | A   | E   | FG  |

### Valve constructions

| 1. | Valve series                       |  |  |
|----|------------------------------------|--|--|
| AM | Angle Omega trim, multi-stage type |  |  |

| 6. | Body material |  |
|----|---------------|--|
| J2 | A216 gr. WCB  |  |
| S6 | A351 gr. CF8M |  |
| J4 | A217 gr. WC6  |  |
| CG | A217 gr. WC9  |  |
| S1 | A351 gr. CF3M |  |
| YY | Special       |  |

- Bonnet material is equivalent to body material.

| 7. | Model code |  |
|----|------------|--|
| B  | Model B    |  |

### Trim constructions

| 8. | Plug material |                                   |
|----|---------------|-----------------------------------|
|    | Material      | Description                       |
| P2 | CA40          | General for carbon steel valve    |
| T6 | CF8M + HCr    | General for stainless steel valve |
| YY | Special       | Special materials                 |

| 9. | Plug application   |  |
|----|--------------------|--|
| X  | Not applicable     |  |
| A  | Cobalt based alloy |  |
| Y  | Special            |  |

| 10. | Stem material |                                   |
|-----|---------------|-----------------------------------|
|     | Material      | Description                       |
| BC  | 630 SS + HCr  | General for carbon steel valve    |
| TC  | 316 SS + HCr  | General for stainless steel valve |
| FC  | 316L SS + HCr |                                   |
| VX  | XM-19         |                                   |

| 11. | Seat type         |  |
|-----|-------------------|--|
| S1  | Single metal seat |  |
| YY  | Special           |  |

| 12. | Seat / disk stack material |            |            |
|-----|----------------------------|------------|------------|
|     | Seat                       | Disk stack | Cage guide |
| P2  | CA40                       | SUS 420J2  | CA40       |
| R4  | CF8M                       | 316L SS    | CF8M + HCr |
| YY  | Special                    | Special    | Special    |

| 15. | Packing material           | 18. | Stud / nut material              |
|-----|----------------------------|-----|----------------------------------|
| G   | PTFE + Carbon fiber        | G   | A193 gr. B7M / A194 gr. 2HM      |
| F   | Graphite                   | D   | A193 gr. B8M / A194 gr. 8M       |
| T   | PTFE V-Ring                | K   | A320 gr. B8M cl. 2 / A194 gr. 8M |
| C   | PTFE + Carbon fiber (ATEX) | H   | A193 gr. B16 / A194 gr. 7        |
| H   | Hi-Graphite                | E   | A453 gr. 660 / A453 gr. 660      |
| Y   | Special                    | Y   | Special                          |

| 16. | Seal ring material       | 19. | Options            |
|-----|--------------------------|-----|--------------------|
| G   | PTFE + Graphite          | X   | Not applicable     |
| H   | PTFE + Graphite + Carbon | E   | Anti-erosion       |
| M   | Graphite                 | L   | Lub. & Isol. valve |
| T   | PTFE                     | W   | Water seal         |
| Y   | Special                  | Y   | Special            |

\* Face to face length according to ISA 75.08

\* The body, bonnet, trim materials are subject to change as equivalent depending on detail design.

\* See 'Neles Globe Type code Instruction' for further options and explanations.

\* Round bar material such as AISI 410SS (for A743 gr. CA 15), AISI 316SS (for A351 gr. CF8M), SUS420J2 (for A743 gr. CA40) and AISI 630SS (for A747 gr. CB7Cu-1) can be used depending on manufacturing process.

## Trim type & rated Cv
